

## APPENDIX A. LIST OF CHARTS AND TABLES

Below is a list of charts and tables (by Figure number) included in the Final Report. In virtually all cases, information provided by community type is also provided by revenue size in a corresponding figure.

Figure 1 through Figure 21 include general demographic information. Figure 1 shows overall patient insurance coverage. Figure 2 through Figure 7 show financial information by revenue size. This information by community type is included in Figure 8 through Figure 13. Figure 14 through Figure 16 display the overlap between community type and revenue size. Figure 17 through Figure 21 include financial information by excess revenue categories.

Figure 22 through Figure 24 show patient information by community type. This information is shown by revenue size in Figure 50 through Figure 52. Figure 25 through Figure 49 show reported community benefit expenditure information and analysis, both on an aggregate basis and by the various components of community benefit by community type. This same information is shown by revenue size in Figure 53 through Figure 77.

Figure 78 and Figure 79 relate to the group of 15 hospitals that provided 93% of the aggregate medical research expenditures. Figure 80 through Figure 85 show the analysis of the inclusion of bad debt and various shortfalls in uncompensated care. Figure 86 through Figure 89 show community benefit expenditures across various income levels. Figure 90 through Figure 93 show community benefit expenditures across various health insurance coverage levels. Figure 94 and Figure 95 show the overlap between the income and health insurance coverage groups.

Figure 96 through Figure 117 relate to the executive compensation portion of the project.

Figure 118 and Figure 119 show a summary of demographics and reported community benefit expenditure data.
